Les données sur le dessin sont exprimées en mm.

The diagram shows a light beam with a 120-degree angle. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at the top (4000 lux) and narrower at the bottom (8000 lux). The beam is centered on a vertical axis. The diagram is labeled with '4000' and '8000' at the top and bottom of the beam, respectively. The beam angle is labeled '120°' at the top. The beam is wider at

Données techniques

Concept

Projecteur professionnel encastrable avec unité optique fixe.

Source

LED Chip on Board haute efficacité. Températures de couleur 4000K (Ra80).

La classe d'efficacité énergétique du produit	B
Puissance nominale	12W
Flux nominal	2053lm
Indice de rendu des couleurs	80
R _f	81
R _g	97
CCT nominale	4000K
Durée utile (L80/B10)	56000h tq +25°C
Durée utile (L90/B10)	56000h tq +25°C

En raison de l'évolution technologique des composants électroniques, les données indiquées peuvent subir des mises à jour ; il faut donc demander confirmation à la commande.
Le flux lumineux et la puissance électrique présentent des tolérances de +/-10% par rapport à la valeur indiquée. tq +25°C (CIE 121).

Nous réservons le droit d'apporter des modifications techniques.

Données techniques

Caractéristiques de l'éclairage

Lentille en PMMA de degré optique et filtre holographique diffuseur.

Optique	SP
Ouverture du faisceau	SP
Rendement optique	71,59%
Flux appareil	1470lm
Efficacité lumineuse	107lm/W
Sécurité photobiologique	Conforme au groupe RG1 (Risque faible)

Caractéristiques mécaniques

Corps en aluminium moulé sous pression avec 2 couches de protection : cataphorèse et revêtement peinture noire. Anneau de finition ultraplat avec bord évasé en acier inoxydable (AISI 316) brossé (finition eclipse black). Verre de protection extra-clair.

Couleur et finition	Eclipse black
Dimensions	ØxH 130x94mm
Poids	1Kg
Version	Verre extra-clair
Degré de protection	IP66,IP67,IP68
Résistance mécanique	IK10

Caractéristiques électriques

Alimentation à courant constant. Driver distant ON-OFF ou DALI2 à commander séparément. Précâblé avec un câble de 1,5m 2x0,5mm². Système de contrôle Casambi disponible au moyen d'un accessoire (uniquement pour les produits avec driver DALI2).

Puissance installée	13,8W
Alimentation	700mA
Classe d'isolation	CLASSE 3
Driver inclus	NON
Température ambiante	-25°C / +50°C

Installation

Installation au sol au moyen d'un boîtier en nylon renforcé, à commander séparément. Le pot est pré-équipé pour installer l'appareil avec l'anneau affleurant ou bien en saillie. Résiste à une charge statique de 20kN. Installation mur/plafond au moyen de systèmes de fixation accessoires.

Notes

IP68 : l'appareil ne peut pas être installé sous l'eau de façon permanente, mais il peut tout de même supporter une immersion temporaire accidentelle à 1,5 mètres de profondeur (max.1h). Toutes les versions du Keplero Quantum 130 répondent aux exigences de la norme EN 60598-2-13 en matière d'accès carrossable et de praticabilité piétonne. Il adopte la solution technique "Waterblock Smart" qui prévoit le résinage des câbles de branchement, ce qui limite le risque de remontée de l'humidité vers l'appareil. Mise en service du système de contrôle par APP gratuit ; l'intervention d'un technicien spécialisé peut faire l'objet d'un devis sur demande.

Garantie

5 années.
