The diagram on the left illustrates the light distribution of the fixture. It features a circular beam with a diameter of 120 inches at the top. The beam is divided into three concentric regions: an innermost solid black circle, a middle dashed circle, and an outermost dotted circle. The beam is labeled with a diameter of 120 inches at the top and a diameter of 600 inches at the bottom. The beam is also labeled with a diameter of 300 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of 600 inches on the left and a diameter of 30 inches on the right. The beam is labeled with a diameter of

Technische Daten

Konzept

Magnetische Wallwasher-Leuchtmodule mit 48V-Niederspannung.

Lichtquelle

Hocheffiziente COB-LED Ra90.

Die Energieeffizienzklasse des Produkts	D
Nennleistung	16W
Nenn-Lichtstrom	2389lm
Farbwiedergabeindex	90
R _f	92
R _g	101
Ähnliche Farbtemperatur	3000K
Lebensdauer (L80/B10)	72000h tq +25°C
Lebensdauer (L90/B10)	72000h tq +25°C

Technische Daten

Beleuchtungstechnische Merkmale

Wallwasher-Optik: Reflektor aus hochreflektierendem eloxiertem Aluminium, holografischer Diffusorfilter, Rahmen aus schwarzem Polycarbonat.

Optik	Wall Washer
Optische Effizienz	71,59%
Leuchten-Lichtstrom	1710lm
Lichtausbeute	96lm/W
Fotobiologische Sicherheit	Risikogruppe 1 (RG 1 = geringes Risiko)

Mechanische Merkmale

Gehäuse aus schwarz lackiertem Druckguss-Aluminium. Größen 150x50mm.

Farbe und Oberfläche	Tiefschwarz
Abmessungen	AxBxH 150x50x69mm
Gewicht	0,24Kg
Version	Digital Dimming
Schutzart	IP20

Elektrische Merkmale

Leistungsaufnahme der Leuchte	17,8W
Betriebsgerät	48Vdc
Schutzklasse	SCHUTZKLASSE 3
Umgebungstemperaturen	0°C / +25°C

Installation

Extrem schnelles, vielseitiges und einfaches System zur mechanischen Befestigung und Stromversorgung über Magnete, die bei allen Versionen die Funktion haben, die Leuchte auf der Power Track-Schiene zu halten und das Produkt mit Strom zu versorgen.

Hinweise

Version Digital Dimming. Die 110-277Vac Version ist auf Anfrage erhältlich.

Garantie

5 Jahre.
