INSTALLATION

"Bayonet" fixing system for the optical head. Available with three different height poles - 371, 771 and 971mm. To be completed with a stainless steel anchoring system, available in two versions with hidden plate or surface plate for installation with dowels. On both mounting options can be applied stainless steel rods for installation in concrete.

NOTES

Uses the "Waterblock Plus" technical solution that involves resin coating the connection cables and completely resin coating the integrated driver limiting the risk of humidity reaching the fixture. Cathaphoresis treatment for the optical head available on request. 110-277Vac version available on request.

WARRANTY

5 years.
